**MEDIA ALERT**

**Angel Skin Care Brings Lalisce Skin Solutions to U.S. Market**

NEW YORK, New York (Nov. 14, 2006) – Angel Skin Care ([www.angelskincare.com](http://www.angelskincare.com)), a major distributor and retailer of international and domestic skin care product lines for infants to adults, announces they have introduced to the U.S. market the high-quality natural skin care system, Lalisce Skin Solutions ([www.lalisce.com](http://www.lalisce.com)). Manufactured in Australia, Lalisce's unique blend of traditional oriental formulas with modern skin care applications has earned international acclaim and is endorsed by numerous celebrities and beauty editors worldwide. Consumers in the United States and Canada can now experience for themselves the results of using Lalisce products.

Lalisce uses the latest German technology to extract natural plant essences and incorporates the properties of herbs and the power of pearls to guarantee the effectiveness of their products. Differentiating itself from other skin care products, Lalisce works to correct the cause rather than just the symptoms of unclear or damaged skin. For example, the special formula behind the Lalisce Acne & Pimple Solution Range deeply penetrates skin to improve circulation and utilize the body's natural defenses against skin irritation. Lalisce also offers additional products, such as their Anti-Spot Skin Serums and Spot Free Skincare. All these products can be purchased via Angel Skin Care's website, which is currently heavily promoting the popular [Lalisce Starter Kit](#) that recently was praised by StyleBakery.com in their *Designers on the Rise* section as well as *Five Star Reviews* magazine in their November issue.

"We are really thrilled to bring Lalisce Skin Solutions to the U.S. market," said Jong Tang, president of Angel Skin Care. "They complement our existing lines of chemical-free skin care products. Lalisce has been so successful overseas that they are sure to hit home domestically."

Angel Skin Care is the exclusive U.S. and Canada distributor for Lalisce. In addition to Lalisce, Angel Skin Care carries product lines (acne, baby, bath & body, lip balm, and skin care) from Bath By Bettijo, Dr. Qu, and Ecco Bella.
